SKILLS

- **Languages:** C, C++, Python
- **Frameworks & Libraries:** ReactJS, NodeJS, HTML, CSS
- **Tools & Platforms:** MySQL, Docker, Git, GitHub, Figma, Apache Cloud Stack, AWS
- **Core CS Fundamentals:** Database Management System, Operating System, Object-Oriented Programming
- **Soft Skills:** Critical Thinking, Team Collaboration, Adaptability & Learning Agility, Public Speaking

PROJECTS

FileGenieAI – AI-Powered File Toolkit | [Git](#) | [Live](#) Mar 2026

- Engineered an AI-powered platform enabling file processing through simple command-based interactions.
- Integrated an AI assistant for command-based file operations, enabling conversions and tasks via natural language.
- Achieved up to 80% faster file operations through optimized processing and AI-driven command execution.

Tech stack: React (Vite), JavaScript, Python (FastAPI), Cloudinary, MongoDB.

LOSTit – AI-Powered Lost & Found Management Platform | [Git](#) | [Live](#) Dec 2025

- Designed an AI-powered system to digitize and automate lost & found management for campuses and public spaces.
- Curated a serverless system using AWS and Google Gemini API for recognition, chatbot support, and verification.
- Improved item matching accuracy by 85% using AI models, reducing manual search effort.

Tech stack: React (Vite), JavaScript, AWS, Python, Google Gemini API.

BillMate – Bill Reminder & Payment Tracking Platform | [Git](#) | [Live](#) Oct 2025

- Crafted a platform to help users track bills and receive timely reminders to avoid missed payments.
- Engineered a platform with bill tracking, due-date alerts, automated reminders, and user authentication.
- Integrated database and UI components to provide a seamless and user-friendly experience.

Tech stack: HTML, CSS, JavaScript, MongoDB.

EXPERIENCE

C++ with OOPs Programming Language – [Cipher School](#) Jul 2025

- Acquired a strong foundation in C++ with core OOP concepts like classes, polymorphism, encapsulation, and abstraction.
- Solved coding problems and assignments to improve logical thinking, problem-solving, and code optimization skills.

Tech stack: C++, Object-Oriented Programming (OOP).

Python – [Placify Technologies](#) Sep 2024

- Accomplished an intensive Python internship covering core concepts including data types, functions, and file handling.
- Recognized for being hardworking, disciplined, and a quick learner while consistently delivering assigned tasks throughout the internship.

Tech stack: Python.

CERTIFICATIONS

- Successful Career Development | [Link](#) Mar 2026
- Oracle Certified AI Foundations Associate | [Link](#) Nov 2025
- Certified Cloud Foundations Associate | [Link](#) Nov 2025
- Introduction to Hardware and Operating Systems | [Link](#) Sep 2024
- The Bits and Bytes of Computer Networking | [Link](#) Sep 2024

ACHIEVEMENTS

- **AWS Academy Cloud Foundations Course Completion Badge:** Jul 2025
Earned after successfully completing the AWS training course and its hands-on labs.
- **Secured Top 10 Position in AWS Hackathon:** Jan 2024
Among 1,000+ participants in the AWS Hackathon.

EDUCATION

Lovely Professional University Phagwara, Punjab
Bachelor of Technology - Computer Science and Engineering; **CGPA: 6.26** Aug' 23 - Present

Army Public School Jalandhar, Punjab
Intermediate; **Percentage: 72.6%** Jun' 22 – Apr' 23

Army Public School Jalandhar, Punjab
Matriculation; **Percentage: 92.6%** Jun' 20 - Mar' 21
